

M.C. MEHTA ENVIRONMENTAL FOUNDATION

Certificate Course

ENVIRONMENTAL JUSTICE : A MULTI-DISCIPLINARY APPROACH

26th-29th JANUARY, 2017

The environment is a heritage shared by all life collectively, but not equally. This disparity is the source of all suffering which environmental law, through its various statutes, agencies and precedents serves to eliminate. This course aims at developing an understanding of the multi-disciplinary nature of environment degradation, judicial implementation and people's participation. By assessing key statutes, understanding the implementation gap and discussing remedial measures, via means both educative and creative, the participants shall be equipped to form correct opinions and take appropriate action.
